SecureLease™ Leasing Program

Security is more important than ever, but the initial cash outlay to deploy an access control or larger scale security system can often surpass available budget. Keri Systems has the solution. Keri's **SecureLease** program for access control and related security systems allows a user to finance their Keri access system over 5 years without having to fund the purchase and installation of the system with an up-front lump sum.

For an average installation, the customer can lease the equipment and installation of a Keri access control system for just \$56.95 per month per door on the basic **SecureLease** program. At the end of the 5 year term, the customer owns the equipment with no end-of-lease buy-out payment. The Diamond **SecureLease** premium package (\$69.95/mo.) includes a number of extras, such as on-line training, free proximity cards or tags, and a 5 year unconditional warranty on Keri control equipment. **SecureLease** terms can be calculated to include all aspects of a security installation, including access control, CCTV, intrusion and fire detection.

Makes the system you need affordable

\$56.95 per door, per month*
60 month lease, with no end-of-lease buy-out

Covers all access control equipment and installation

Diamond Lease Package - \$69.95
