

# Eco | Turnstiles

DATA SHEET, Page 1 of 2

Our solutions create new opportunities

- Wall-mounted
- Turnstile hardware is managed by an external control panel or by an external access control system controller
- Installation of optional devices is available:
  - Keri NXT/MS Series Card Readers
  - 125 kHz RFID or 13.56 MHz MIFARE® Card Readers
- Anti-Panic Function can be controlled remotely and enables free passage in emergencies by fully opening the turnstile.
- Anti-Panic Function allows the turnstile to be integrated into an access security system, and can be automatically activated simultaneously with an alarm notification
- Simple, quality design ensures long-lasting durability

The **Eco** is a compact, tripod-style turnstile, and an ideal solution for providing access control at small enterprises such as offices, banks, and public transport platforms — Locations where discreet size, reliable design and cost efficiency are equally important. This turnstile was developed based on the *Expert* turnstile, preserving full functionality, and coming equipped with a controller, indication lights and a reader. The **Eco** saves both money and space.
