## Product End-of-Life Notice

Keri has announced that due to age and low demand, several products will no longer be available for sale. We encourage customers to plan accordingly for future needs.

### **Doors NetXtreme Access Control Software**

This was the original software that was designed for use with NXT hardware, and has been supplanted by Doors.NET. Customers are advised to convert to Doors.NET as soon as possible, and by doing so will get some extra features and benefits. Keri offers a conversion service to bring most items in the NetXtreme database into Doors.NET, so reprogramming efforts are minimal.

### **Biopointe Fingerprint Readers**

Biopointe will be available in small quantities for replacements and system add-ons for a period of time, but Keri will not be offering it for new projects. Keri hopes to have a new biometric offering in the near future.

### **No Phone Line (NPL) for Entraguard Telephone Entry**

The NPL products will no longer be offered, however they can be sourced from the following distributor:

Alpha Communications  
42 Central Drive  
Farmingdale NY 11735-1202

Attn: Mark Goldberg

631-777-5500

### **Model Cross reference:**

#### **Keri Systems Part Number**

NPLII-MC  
NPLII-RC  
NPLII-EC  
NPLII-48

#### **Manufacturer's Part Number**
