

Recommended PC Requirements for Keri Software

Reference Document

This document provides minimum PC hardware requirements to ensure acceptable software system operation in typical access control applications. Access control applications with large numbers of controllers and/or cardholders should consider upgrading from the minimum requirements.

NOTE: PC capability, cost, and accessibility is constantly changing. This document provides Keri's recommendations, but is subject to change as PC hardware changes.

- Generic Requirements for all PCs
 - Ethernet Adapter
 - DVD Drive
 - Keyboard, Mouse, Display
 - USB Port(s)
